

FRANCISCO ALBERTO BENE

Junior Full Stack Developer | Pharmacy Technician | Final-year Accounting and Auditing Student

Maputo, Mozambique | +258 84 644 6019

Franciscobene0@gmail.com

fabene258.github.io/francisco-bene-portfolio/

Professional profile

Junior developer building full-stack web applications and Android products through independent projects. React and TypeScript interfaces, Wasp / Node.js server operations and Prisma / PostgreSQL persistence, demonstrated in ClientFlow CRM. Two Android apps published on Google Play. Experience in pharmacy operations and medicines research strengthens my attention to users, documentation and confidential information.

Technical skills

Full Stack

React, TypeScript, Wasp, Node.js, Prisma, PostgreSQL; authentication, validation, account isolation and automated tests.

Web & automation

HTML, CSS, JavaScript, Python, responsive design, GitHub and GitHub Pages.

Mobile & cloud

Kotlin, Android Studio, Firebase, Google Cloud, APIs, OCR and Google Play Console.

Featured Full Stack project

ClientFlow CRM | Independent portfolio project | 2026

Bilingual CRM with dashboard, sales pipeline, lead editing and notes, archive/restore, tasks, reports, CSV export and dark mode. The Wasp SaaS includes email authentication, PostgreSQL persistence and per-account access checks. Twelve local domain/integration tests passed. The public GitHub Pages demo uses fictional session data; persistent accounts require a separate backend deployment.

Selected Android & web projects

Roast - AI Photo Content | Google Play | 2026

Android app that turns photos into playful roasts, compliments and social captions using AI. Built with Kotlin, Android Studio, Firebase and Google Cloud.

Document Scanner & Translator | Google Play | 2026

Scan documents, translate extracted text and export to PDF or Word. Kotlin, OCR, translation and Firebase.

Calorie & Nutrition App | Prototype | 2026

Android product concept for calorie calculation and daily nutrition tracking.

Personal portfolio | Live website | 2026

Responsive bilingual portfolio with project demos, case studies and CV downloads. HTML, CSS, JavaScript and GitHub Pages.

Professional experience

Medicines Research Collaborator | National Institute of Health | Present

Support medicines-related research, organise structured information and handle research documentation carefully.

Pharmacy Technician | Farmácia Nossa Casa II | June 2019 - Present

Guide customers and patients, organise medicines, control stock and expiry dates, and maintain accurate, confidential records. Coordinate requests with colleagues.

Earlier experience

Pharmacy Intern | February - June 2019

Farmácia Nossa Casa, Laulane, Maputo. Supervised customer service, product organisation and pharmacy tasks.

Clinical placements | 2017 - 2018

Hospitals, provincial medical stores and health centres in Tete and Chimoio.

Warehouse, public works and retail | 2010 - 2015

Warehouse supervision, public works assistance and retail support.
